PIUG 2024 Combined Annual and Biotech Conference– SPONSOR & EXHIBITOR BENEFIT TABLES

- All Plenary presentations and some workshops live-streamed during the on-site conference will be recorded and available for later playback. Please contact Admin@piug.org for clarification on workshop availability and what is included at each level if necessary.
- All Sponsors and Exhibitors will pre-record a product review which will be loaded into the meeting app and available to all Conference attendees.
- There will be a web app/online platform for the Conferences; Sponsors/Exhibitors will be able to populate their space in the app with contact information, links, pdfs, pre-recorded videos and the like; there is no expectation that Sponsors/Exhibitors will be available virtually during the on-site Conferences (if any Sponsors/Exhibitors choose to be available for virtual consults/meetings during the on-site Conferences that is entirely their choice).

Please reach out to Ken Koubek (admin@piug.org) if you need clarification on any of the above in order to make your Sponsorship decision.

 # Workshops:

Workshops may be scheduled concurrently depending on the number/duration of workshops requested; conflicts will be minimized and some workshops will be live-streamed and recorded for playback by Conference attendees. **Workshops for Bronze Sponsors will be streamed if slots are available on a first come/first served basis. Once the 8 total live-streamed workshop slots are taken, all remaining slots will be recorded only.**
